ABOUT ME

I'm a Chilean programmer with experience mostly in web development, and formal education based on software development and project management. I've most recently worked with Vue.js and Javascript, and previously with Python, mostly through Django web applications.

I am currently in Australia doing a working holiday visa, valid until February 2025.

RELEVANT WORK EXPERIENCE

2024 — **Data Annotator.** — *Data Annotation.*
Freelance side gig correcting AI responses to math, coding and coding-adjacent prompts.

2021 — **Front-end web developer.** — *CyD Tecnología.*
Full time job in one of the largest civil engineering companies in Chile. I was in charge of constructing the front-end interfaces for an internal management site, based either from team-assembled wireframes or by my own design. I also assisted the design of the corresponding data structures and implementation of some back-end functionalities.

```
Javascript / Vue.js / Handlebars
```

2018 — **Back-end programmer.** — *Bindex SpA.*
Two months long internship, later extended into part time job for a few more months. My work there involved using web scrapers to catalog and graph financial data, to then be displayed according to specified templates, also implemented by myself. I also assisted the construction of this interface's back-end to front-end communication.

```
Python / Django
```

2016 – 2019 — **Teacher Assistant.** — *Universidad Diego Portales*
I gave demonstrations, prepared study material and graded assessments for telecommunications and mathematics courses, which helped me get familiar with common functionalities of the Microsoft Office suite.

```
Microsoft Office: Word / Excel / Powerpoint
```

EDUCATION

2015 – 2020 — **TÍTULO DE INGENIERÍA CIVIL EN INFORMÁTICA Y TELECOMUNICACIONES (tr. Computer Science and Telecommunications Engineering major.)**
🏛 **Universidad Diego Portales**
11 semester program with courses on Computer Science, IT projects management, and digital telecommunications.

2018 — **STUDY ABROAD**
🏛 **King's College London**
International student exchange program in which I attended and passed Computer Science and Anthropology courses for one semester, entirely in English.

2000 – 2011 — **ELEMENTARY EDUCATION AND HIGH SCHOOL DIPLOMA**
📰 **Colegio de los Sagrados Corazones, Concepción**

LANGUAGES

Spanish	Native	
English	C2	114/120 TOEFL 2018
Japanese	N/A	Not certified (self-taught)

OTHER SKILLS

Other programming languages I've also worked with during university include Ruby and C++.

I've worked with both SQL and NoSQL databases.

Some of the electives I've coursed include Artificial Intelligence, Computer Graphics Systems, and Large Volume Database Management.

Proficient in audiovisual editing.
